KDE Data Entry Standards

Purpose

The purpose of the Data Entry Standards document is to give driver trainers a set of guidelines for entering data into Driver Data program. This document lists the data elements with screen shots and instructions. The data in this report is **required** by the Kentucky Department of Education from all districts on their current certified school bus drivers.

The Kentucky Department of Education, Student Tracking and Transportation Branch (STTB) is responsible for preparing and maintaining this document. Please submit your comments or questions about this document to Monica.Napier@education.ky.gov or by calling (502) 564–5279, ext. 4436.

Documentation for Driver Database

In the past, reports have been submitted on paper to KDE. KDE no longer accepts paper copies of the reports; they must now all be submitted through the Driver Database.

Kentucky School Bus Driver Database

https://odss.education.ky.gov/PupilTransportation_client/Login.aspx

The screenshot shows a Microsoft Internet Explorer window titled "Untitled Page - Microsoft Internet Explorer provided by KY Dept. of Education". The address bar displays the URL https://odss.education.ky.gov/PupilTransportation_client/Login.aspx. The page features a blue header with the "Kentucky.gov" logo and links for "KY Agencies", "KY Services", and a "Search" box. Below the header is a banner image of a yellow school bus with the text "Pupil Transportation". The main content area contains a login form with the instruction: "Please enter your user name and password to access a web based form. If you need assistance obtaining a user name or password, please contact your district's web administrator." The form includes two input fields labeled "User Name:" and "Password:", followed by a "Submit" button. At the bottom of the page, there is a footer with links for "Contact Us" and "Copyright © 2012 Commonwealth of Kentucky". The status bar at the bottom indicates "Local intranet | Protected Mode: Off" and a zoom level of "100%".

If you forget your user name or password you may *retrieve your user information at the following link*:

Path: <http://education.ky.gov/districts/trans/Pages/Reporting.aspx>

****If you have failed to recover your forgotten user id or password after 3 attempts, the system will lock you out and you will need to contact the KDE Help Desk at 502-564-2020 and ask them to reset your password.**

ADD A NEW BUS DRIVER

This screen is used to add a new driver to the Driver Database.

Please input the appropriate data and then click on 'Submit' when you are finished. For Help, please read the [Instructions](#).

Description of Data field Fields

Data field: District

District(s) you are under contract with as a driver/trainer.

Data field: License State

The name of the State that issued the CDL to the school bus driver.

Data field: License Number

Drivers CDL number should appear **exactly** as it is on the license issued to the school bus driver with no hyphens. Example: S9429429 **not** S94-29-429.

Data field: License Expiration Date

Drivers CDL expiration date should appear **exactly** as it is on the license issued to the school bus driver. Data should be entered as mm/dd/year. Example: 01/01/0000

Data field: Birth Date

Driver's date of birth should appear **exactly** as it appears on the CDL issued to the school bus driver. No hyphens should be entered.

Data field: Last Name

Driver's last name should appear **exactly** as it appears on the CDL issued to the school bus driver. Example: O'Quinn. Please put that punctuation in the driver database. Do not put suffix's (example: Jr., Sr.,) in the last name data holder.

Data field: Suffix

Driver's suffix (if they have one listed on their CDL) should appear **exactly** as it appears on the CDL issued by Kentucky Transportation Cabinet to the bus driver. Example: Jr., II. Please put that punctuation in the driver database to exactly match the CDL records.

Data field: First Name

Driver's first name should appear **exactly** as it appears on the CDL issued to the bus driver. Example: B.J. Please put that punctuation in the driver database to exactly match up the records.

Data field: Middle Name

Driver's middle name should appear **exactly** as it appears on the CDL issued to the bus driver. This field is for a middle name **only**. If there is only a middle initial for the middle name on the CDL enter the initial exactly, if there is an entire name, enter the entire middle name into the database.

*Data field: Social Security Number

The bus driver's social security number should appear **exactly** as it is on the license issued to the school bus driver. **No hyphens** should appear in the number. Example: Use 000000000 **not** 000-00-000.

*Data field: Certification Date

Date bus driver was certified by KDE.
Data should be entered as mm/dd/year.

Data field: Medical Exam Date

Date the required yearly medical exam was performed by a trained professional. Data should be entered as mm/dd/year. Example: 01/01/0000.

Medical Expiration Date

Date yearly medical exam performed by medical professional expires. ***This date cannot exceed 1 year from the date of the medical exam, as the system reports are based on 365 days only.***

Data field: Submit

Submit option is used to enter data into the database once you have verified the information you are updating is correct. The changes are not saved until you click on **Submit**.

Data field: Cancel

Cancel option is used to change/cancel data that is incorrect or that you do not wish to submit as a change to the database. **Cancel** will also back you out to the main menu of the program.

UPDATE AN EXISTING BUS DRIVER

Step 1: This screen is used to update driver information in the driver database

Please input the appropriate data and then click on 'Submit' when you are finished. For Help, please read the [Instructions](#).

Adair County ▼

*License Number

Submit Cancel

Description of Data field Fields

Data field: District

District(s) you are currently under contract with as a driver/trainer.

Data field: License Number

Drivers CDL number should appear **exactly** as it is on the license issued by the Kentucky Transportation Cabinet to the school bus driver. No hyphens should appear in the number. Example: S9429429 **not** S94-29-429.

Data field: Submit

Submit is used to enter data into the database once you have verified the information is correct. The changes are not saved until you click on **Submit**.

Data field: Cancel

Cancel is used to change/cancel data that is incorrect or that you do not wish to submit as a change to the database. **Cancel will also back you out to the main menu of the program.**

Step 2. Please input the appropriate driver data in the data field and then click on 'Submit' when you are finished. For Help, please read the [Instructions](#).

Step 2: Update Driver

*District: KDE

*License State: Kentucky

*License Number:

*License Expiration Date:

*Birth Date: 8/21/1957

*Last Name:

Suffix:

*First Name:

Middle Name: G

*Social Security Number:

*Certification Date: 10/2/2010

Annual Update:

Medical Exam Date:	<input type="text" value="8/19/2011"/>
Medical Expiration Date:	<input type="text" value="8/18/2012"/>
Termination Date:	<input type="text"/>
<input type="button" value="Submit"/> <input type="button" value="Cancel"/>	

Description of Data Fields

Data field: District

District(s) you are currently under contract with as a driver/trainer.

Data field: License State

The name of the State that issued the CDL to the school bus Driver.

Data field: License Number

Drivers CDL number should appear **exactly** as it is on the license issued to the school bus driver. No hyphens should appear in the number. Example: S9429429 **not** S94-29-429.

Data field: License Expiration Date

Drivers CDL expiration date should appear **exactly** as it is on the license issued to the school bus driver. Data should be entered as mm/dd/year. Example: 01/01/0000.

Data field: Birth Date

Driver's date of birth should appear **exactly** as it appears on the CDL issued by Kentucky Transportation Cabinet to the bus driver.

Data field: Last Name

Driver's last name should appear **exactly** as it appears on the CDL issued by Kentucky Transportation Cabinet to the bus driver. Example: Sr. Please put that punctuation in the driver database to exactly match records.

Data field: Suffix

Driver's suffix if they have one listed on their CDL should appear **exactly** as it appears on the CDL issued by the Kentucky Transportation Cabinet to the bus driver. Example: O'Quinn. Please put that punctuation in the driver database to match exactly by Kentucky Transportation Cabinet's records.

*Data field: First Name

Driver's first name should appear **exactly** as it appears on the CDL issued to the bus driver. Example: B.J. Please put that punctuation in the driver database to exactly match the records.

Data field: Middle Name

Driver's middle name should appear **exactly** as it appears on the CDL issued to the bus driver. If there is punctuation on the name on the CDL, (T.J.) please put that punctuation in the driver database to exactly match the records. This field is for a middle name **only**.

Data field: Social Security Number

Driver's social security number should appear **exactly** as it is on the license issued to the school bus driver. **No hyphens** should appear in the number. Example: 000000000 **not** 000-00-000).

Data field: Certification Date

Date bus driver was certified by KDE. Data should be entered as mm/dd/yy. Example: 1/01/0000.

Data field: Medical Exam Date

Date the yearly required medical exam was performed by a trained professional. Data should be entered as mm/dd/year. Example: 01/01/0000.

Data field: Medical Expiration Date

Date yearly medical exam performed by medical professional expires. This date **cannot** be more than 1 year ***from the date of the medical exam*** performed the prior year.

Data field: Submit

Submit is used to enter data into the database once you have verified the information is correct. The changes are not saved until you click on **Submit**.

Data field: Cancel

Cancel is used to change/cancel data that is incorrect or that you do not wish to submit as a change to the database. **Cancel** *will also back you out to the main menu of the program.*

8 Hour Update

This screen allows the driver trainer to update multiple drivers in the district **at the same time** for their annual training update.

A screen shot is provided below;

Kentucky.gov KY Agencies KY Services Search

Pupil Transportation

[Logout](#)

If you have any questions about the information on this page, please contact the Kentucky Department of Education.

District: KDE

Date Of Update:

Select	Last Name	First Name	License Number	License Expiration	Certification Date	Annual Update
<input type="checkbox"/>	JUNGLE	JANE	888888888	3/13/2016	1/1/2011	1/1/0001

Description of Data Fields

Data field: District

District(s) you are currently under contract with as a driver/trainer.

Data field: Date of Update

The date the school bus drivers attended the 8 hour update.

Data field: Select Box

Click on the select date in front of the drivers name **to select** the driver for the 8 hour update training. If there are drivers that did not attend this training, **do not** select the box in front of their name.

REPORTS

All reports may be pulled from data field, entered into the districts by the Driver/Trainer, FOR THAT DISTRICT.

Bus Driver Report Examples

This report is used to record data for School Bus Drivers that have been terminated by a driver trainer OR to record data for current school bus drivers for that district (as entered by the Driver Trainer). KDE recommends this report be generated at regular intervals (monthly) to ensure that bus drivers who have been terminated show termination dates in the records.

A paper copy of the report can be generated for review by the Driver Trainer to ensure that all driver information is current and correct. This field is not **required**, but the KDE recommends completing all fields in the Driver Database each time a bus driver's information is edited and/or updated to maintain the most current data possible on each school bus driver.

EXAMPLE 1

Driver Report: Terminated Driver option displays ONLY TERMINATED school bus drivers for that district.

*License Number:

Description of data fields

Data field: *District

List of the district(s) you are currently under contract with as a driver/trainer.

Data field: *License Number

Drivers CDL number should appear **exactly** as it is on the license issued by the Kentucky Transportation Cabinet to the school bus driver. No hyphens should appear in the number. Example: S9429429 **not** S94-29-429.

Data field: Submit

Submit is used to enter data into the database once you have verified the information is correct. The changes are not saved until you click on **Submit**.

Data field: Cancel

Cancel is used to change/cancel data that is incorrect or that you do not wish to submit as a change to the database. **Cancel will also back you out to the main menu of the program.**

EXAMPLE 4

Bus Drivers by License Report: Used to indicate school bus drivers that have expired or will expire in the next 60 days.

KDE recommends this report be generated and reviewed on a monthly basis to identify bus drivers with CDL's that will need to be renewed. This allows the district sufficient time to meet the requirements for the CDL license renewal. This field is not **required**, but the KDE recommends completing all fields in the Driver Database each time a bus driver's information is edited and/or updated to maintain the most current data possible on each school bus driver.

Example 9

License Expiration Report: This report is used to indicate driver's licenses that are expired or will expire in the next 60 days. KDE recommends this report be generated on a monthly basis to identify bus drivers who's CDL will need to be renewed. This allows the district plenty of time to meet the guidelines established by KDE in CDL license renewal. This field is currently not a required field by KDE, but KDE recommends completing (all fields in the Driver Database upon entering or updating a driver's information into the Database and maintaining that data to the most current data possible on each bus driver).
